Academic Works & Projects

Portfolio Website:

Developed a personal portfolio website using React and Bootstrap, showcasing projects, skills, and experiences in front-end development. Designed to provide a visually appealing and user-friendly interface, highlighting proficiency in HTML, CSS, JavaScript, and React frameworks. Demonstrates a commitment to continuous learning and a passion for creating engaging digital experiences.

TextUtils – A Text Manipulation Webapp:

Crafted aTextUtils web application using ReactJS and Bootstrap, offering versatile text manipulation functionalities. Seamlessly convert text to uppercase or lowercase, duplicate content, and provide character and word count metrics. Additionally, empowered with a theme-switching feature, toggling between dark and light modes for enhanced user experience and accessibility.

Online MCQ Test Platform:

Developed an online MCQ test platform using HTML, CSS, JavaScript, PHP, and MySQLi. The platform allows users to register and take randomized quizzes, with a timer and instant feedback on their performance. It features dynamic question navigation, score tracking, and performance statistics.
